

## **BCM Resources Trading Suspension Update**

**Vancouver, BC, January 21, 2021** - BCM Resources Corporation (TSX-V: B), acknowledges a Cease Trade Order was issued by the British Columbia Securities Commission on January 20, 2021 against BCM Resources Corporation for failing to file annual audited financial statements, MDA and related certifications. The delay was caused by covid related staffing problems with company staff and we apologize to shareholders for the suspension of trading. We are working with our auditors to complete the required material as soon as possible and remove the suspension. The company has no undisclosed material changes.

### **About BCM Resources Corporation**

BCM Resources Corporation is a diversified Canadian mineral exploration company now focused on completing Phase 1 discovery drilling of the Thompson Knolls property, its key asset. BCM also controls prospective Copper, Gold, and Molybdenum exploration projects in British Columbia. BCM Resources is managed by experienced and successful board members and advisors. For further information, including area maps, sections, and photos, please visit our web site at [www.bcmresources.com](http://www.bcmresources.com) or contact us by e-mail at [info@bcmresources.com](mailto:info@bcmresources.com).

ON BEHALF OF BCM RESOURCES CORP.

*"Dale McClanaghan"*

President and Chief Executive Officer

**Caution Concerning Forward-Looking Statements:**

This news release and related texts and images on BCM Resource Corporation's website contain certain "forward-looking statements" including, but not limited to, statements relating to interpretation of mineralization potential, drilling and assay results, future exploration work, and the anticipated results of this work. Forward-looking statements are statements that are not historical facts and are subject to a variety of risks and uncertainties which could cause actual events or results to differ materially from those reflected in the forward-looking statements, including, without limitation: risks related to fluctuations in metals prices; uncertainties related to raising sufficient financing to fund the

planned work in a timely manner and on acceptable terms; changes in planned work resulting from weather, logistical, technical, governmental, social, or other factors; the possibility that results of work will not fulfill expectations and realize the perceived potential of the company's projects; uncertainties involved in the interpretation of sampling and drilling results and other tests; the possibility that required permits and access agreements may not be obtained in a timely manner; risk of accidents, equipment breakdowns or other unanticipated difficulties or interruptions, and; the possibility of cost overruns or unanticipated expenses in these exploration programs.
